Safety Flooring Cleaning Guidelines

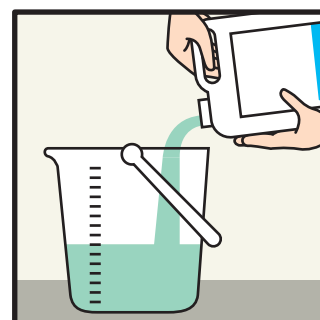

MECHANICAL

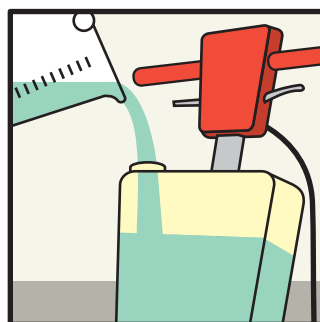

1. Vacuum up dust and dirt, remove large debris.

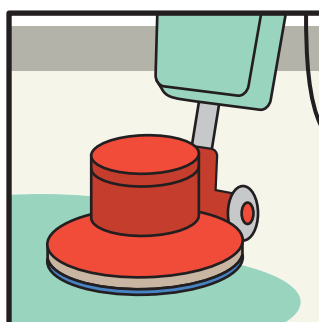

2. Put warm water into a rotary cleaning machine.

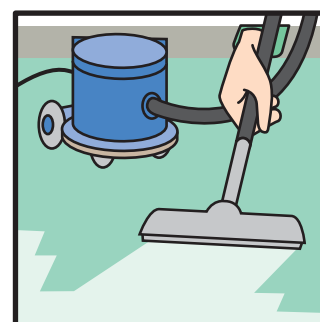

3. Measure out correct volume of Altro 44™ or equivalent cleaner.

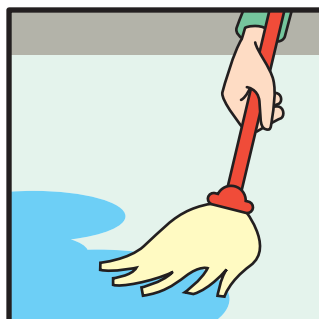

4. Add cleaner to water in rotary cleaner, to achieve correct dilution.

5. Mechanically scrub using rotary cleaner fitted with Altro UniPad or equivalent.

6. Wet vacuum the residue.

7. Rinse the floor with warm clean water, using a mop and bucket.
